TOP 100 QS World University Rankings 2018 in Politics

Who we are

We bring together talented people from across the globe and help them become successful professionals, who shape social, political and academic life wherever they go. Consistently ranked among the 100 best politics programs in the world, our department offers thorough, small-class training in both qualitative and quantitative research methods, data analysis techniques and other substantive areas.

What we offer

MA in Political Science / 1 YEAR / 2 YEARS / Our international curriculum helps you develop a critical understanding of the challenges contemporary political communities and their citizens face. We move across borders and disciplines to give you a comparative perspective, along with hands-on, transferable skills. To gain an even more comprehensive picture, you can join cross-country research projects, and apply for research grants and travel funds to attend conferences.

Our program comes in two formats, with the one-year version offering a more intensive study experience. The two-year version is an ideal stepping stone for PhD research and training, thanks to a more extensive research period. Students with three-year and four-year bachelor's degrees in the social sciences and related disciplines are both eligible to apply for the latter.

PhD in Political Science / The program is run by CEU's Doctoral School of Political Science, Public Policy and International Relations. Students explore areas such as comparative politics, political theory, political economy, international relations and public policy.

DOMINIK BRENNER / GERMANY

"CEU's Political Science program offers cutting-edge research, strong methodology training and an excellent student-faculty ratio. It is a place for people to question the status quo, and gain crucial research experience in a highly international environment."
